- Begin with tangible, measurable project goals
- Align your project budget and budget narrative with your project goals
 - It may be useful to create a worksheet that breaks down all related expenses
- Give yourself plenty of time to develop your grant proposal in order to meet the grant submission deadline
 - Consider your internal review processes as you plan your grant writing schedule
- Take a final pass through your proposal with the grant reviewer's perspective in mind
 - If you didn't write the proposal, would you have a good understanding of what your organization wants to accomplish? Would you fund the project?
 - Ask external reviewers (people not involved with your project or organization) to review your proposal, and clarify areas that raise questions or concerns

Lutheran Grant Program Grant Writing Criteria

Take time to fully understand the grant writing criteria that will be used by reviewers when evaluating your grant proposal

- **Goals. Defined & Measurable**

The product or results of the project are well defined. Goals (sometimes referred to as "outputs") are grouped into four categories

- Behavioral – A human action is anticipated
- Performance – An expected proficiency level is expected
- Process – The manner in which something occurs is an end itself
- Product – The result is a tangible item

- **Action Plan**

Evaluate the action steps and target dates. Are they well-planned, reasonable and logically ordered?

- **Sustainability**

Does the project show potential to help the organization become more secure and sustainable in delivering their mission over the long term?

- **Collaboration**

Make sure partners have been logically selected and are appropriately engaged. The extent of partner-buy-in should be significant, and there should be demonstrated value in working together to create more effective project results.

- **Foundation Acknowledgement**

Ongoing communication and a variety of communication venues should be planned to acknowledge the grant funding and express thanks to the Foundation.

- **Budget & Requestor Investment**

The requesting organization should contribute a minimum of 25 percent of estimated project expenses. Expense items should reflect reasonable and frugal use of funds, the overall budget must demonstrate a practical business plan, the amount of the grant request should be reasonable, and adequate explanation should be given for the budget in the budget narrative section.

- **Charitable Interest Alignment**

Your project should align with the overarching goal of the Lutheran grant Program to help Lutheran nonprofit organizations become more secure and sustainable in delivering their mission by helping them to understand, expand and strengthen their capacity and resources.

- **Project Viability & Organization Capacity**

The proposal should show that the project is planned well and that the organization or organizational partnership is committed and has the capability and leadership to conduct the project successfully.

Economic Self-Sufficiency

We believe that all people should have

- A safe and stable place to live
- The knowledge to make informed financial decisions
- A successful early start in life

All are critical factors in creating a bridge to economic independence. In particular, we support programs and organizations that promote ending homelessness, encourage financial wellness, and provide support for early childhood education

Ending Homelessness

Homelessness is not merely the lack of shelter. It is caused by a variety of underlying, unmet needs—physical, economic and social. We support solutions that provide

- Affordable long-term housing for those of low and moderate incomes, aimed at self-sufficiency
- Transitional housing and related holistic/supportive services for homeless and precariously housed individuals and families, aimed at self-sufficiency
- Work readiness and job support

Financial Wellness

Becoming knowledgeable financial consumers and savers is a cornerstone to economic well-being. We support organizations and programs that provide

- Personal financial education to encourage home ownership, informed investing and educated financial choices
- Youth education that teaches responsible money management skills during the K-12 years
- Affordable financial services as an alternative to predatory financial programs

Early Childhood Education

SCHEDULE 7

It is critical that children entering school arrive with basic skills and be prepared to learn and thrive in the classroom. This increases the likelihood of longer-term academic success and, ultimately, a more productive workforce. We support

- Early childhood education organizations and programs that adequately prepare preschoolers for kindergarten
- Organizations that ensure affordable, quality childcare is available to all, particularly the working poor
- Programs that equip parents with information on school readiness and early childhood development parenting skills

Exclusions

The Corporate Community Grant Program does not provide support for

- Individuals
- Loans or investments
- National or international organizations
- Churches or church organizations for expenses normally regarded as church responsibility
- Duplicate services provided by other agencies
- Religious causes
- Political causes
- Endowments

Corporate Community Grants: Grant Writing Criteria

Developing a strong grant proposal takes time, dedication and coordination of several activities, such as planning, developing a budget, writing a proposal and, in many cases, reviewing and revising your proposal before you submit it. Take time to fully understand the grant writing criteria that will be used by reviewers when evaluating your grant proposal.

- Be sure to read and adhere to the [grant program guidelines](#) (PDF, 49K) and requirements
- Avoid jargon and, if acronyms must be used, use the full name/title on first reference
- When writing, put yourself in the grant reviewer's place. If you weren't the one who wrote the proposal, would you have a good understanding of what your organization wants to accomplish? Would you fund the project?
- Establish and relate tangible, measurable goals and clearly articulate each one
- Give yourself sufficient time to develop your grant proposal in order to meet the grant submission deadline. Consider the time you may need to write and revise multiple drafts, gather relevant information, and submit it through any internal review process that you may have in place
- Ask other individuals (both those who are directly and indirectly involved in your project) to read your grant proposal before you submit it. Consider clarifying any areas that raise questions or are not clear to the reviewer
